

Markdownz PDF sample

This PDF tests the PDF viewer: outline in the table of contents (Ctrl+B), find (Ctrl+F), zoom, links and printing.

Chapter 1: Reading

Markdownz renders PDF pages with pdf.js. The text layer allows selecting and searching text such as needle.

Section 1.1

More text with another needle.

Chapter 2: Navigation

Tabs, tree-shaped history and session restore work for PDFs the same way as for Markdown.

Chapter 3: Open with

Editing and advanced PDF features are available through “Open with...” (Ctrl+Shift+O). The last needle is here.
